

Request for Proposal

Patient Portal Web & Mobile Application

Document ID	RFP-2026-HF-047
Version	v1.2
Effective Date	June 5, 2026
Prepared By	HealthFirst Inc. — Technology Division
Classification	Confidential — For Vendor Distribution Only

HealthFirst Inc. — San Francisco, CA

1. Company Background

Company	HealthFirst Inc.
Founded	2018
Industry	Healthcare / Digital Health
Headquarters	San Francisco, CA, USA
Employees	250+
Patients Served	500,000+ across 15 partner clinics
Contact	Dr. Amanda Roberts, CTO amanda.roberts@healthfirst.com +1 (415) 555-0192

2. Project Overview

HealthFirst is seeking a technology partner to design, develop, and deploy a comprehensive patient portal accessible via web and mobile (iOS/Android). The portal will serve as the primary digital interface between patients and their healthcare providers, replacing the current legacy system that was built in 2019 and no longer meets growing patient expectations for digital health services.

The selected vendor will be responsible for the complete project lifecycle including UI/UX design, frontend and backend development, quality assurance, deployment, and 12-month post-launch support. The solution must comply with HIPAA regulations and achieve SOC 2 Type II certification readiness.

3. Functional Requirements

#	Requirement	Priority	Details
FR-01	Patient Registration & Profile	Must Have	Self-registration with identity verification, profile management, emergency contacts, insurance info
FR-02	Appointment Scheduling	Must Have	Calendar integration, provider availability, automated reminders (email + SMS + push), waitlist management
FR-03	Secure Messaging	Must Have	HIPAA-compliant messaging between patients and care teams, file attachments, read receipts
FR-04	Medical Records Viewing	Must Have	Lab results, prescriptions, visit summaries, immunization records, downloadable PDF reports
FR-05	Telehealth Video	Must Have	WebRTC-based video consultations, screen sharing, virtual waiting room, session recording (with consent)
FR-06	Prescription Refills	Should Have	Request refills, track prescription status, pharmacy integration
FR-07	Push Notifications	Must Have	Appointment reminders, lab results ready, message alerts, medication reminders

#	Requirement	Priority	Details
FR-08	Billing & Copayments	Should Have	View billing statements, pay copays via Stripe, insurance claim status

4. Technical Requirements

The solution must target the following platforms and integration points. Platforms: responsive web application plus native-quality mobile apps for iOS 16+ and Android 12+. Integrations: Epic EHR system via HL7 FHIR R4 API (read/write), Stripe for payment processing, Twilio for SMS notifications, and SendGrid for email delivery. Performance: page load under 2 seconds and support for 10,000 concurrent users at peak load. Security: HIPAA compliance, SOC 2 Type II certification readiness, data encryption at rest (AES-256) and in transit (TLS 1.3), multi-factor authentication for all users, and comprehensive audit logging of all data access and modification events.

5. Budget

HealthFirst has allocated a budget of \$150,000 to \$200,000 USD for the complete project including design, development, testing, deployment, and first-year support. This budget covers all vendor labor costs. Third-party service costs (hosting, SaaS subscriptions, SSL certificates) will be borne by HealthFirst separately.

6. Timeline

Milestone	Target Date	Description
RFP Response Due	June 30, 2026	Vendor proposals submitted
Vendor Selection	July 15, 2026	Shortlisted vendors notified
Contract Signing	August 1, 2026	SOW and contract finalized
Discovery & Design	Aug — Sep 2026	Requirements refinement, UX/UI design
MVP Development	Oct — Nov 2026	Core features (FR-01 through FR-05)
Full Development	Dec 2026 — Jan 2027	Remaining features, integrations
UAT & Launch	Feb — Mar 2027	User acceptance testing, production deployment
Post-Launch Support	Apr 2027 — Mar 2028	12-month warranty and support

7. Evaluation Criteria

Criteria	Weight	Description
Healthcare Experience	30%	Demonstrated experience with HIPAA-compliant healthcare applications
Technical Capability	25%	Team expertise, technology stack, architecture approach
Pricing	20%	Value for money, cost transparency, no hidden fees
Timeline Feasibility	15%	Realistic schedule, risk mitigation plan
References	10%	Client testimonials from similar projects

8. Engagement Preferences

HealthFirst prefers a dedicated team model with named team members. We expect bi-weekly sprint demos with access to a staging environment. Communication should be via Slack (daily async) with weekly video calls. We require full IP ownership of all deliverables. A mutual NDA is required prior to any detailed discussions.

9. Submission Instructions

Please submit your proposal to amanda.roberts@healthfirst.com by June 30, 2026. Include: company overview, relevant case studies, proposed architecture, team composition, detailed cost breakdown, and project timeline. Shortlisted vendors will be invited for a 60-minute presentation in the week of July 7–11, 2026.
